

FINGERFLEX TECHNOLOGY GLOVE FOR COMFORT & DEXTERITY

ABOUT US:

Brightway Group comprises of Brightway Holdings Sdn. Bhd. as its Corporate and Administrative Centre, Laglove (M) Sdn. Bhd. and Biopro (M) Sdn. Bhd. as its main production facilities. The group has a total of 52 lines and is capable of producing 340 million gloves per month. With a total workforce of 2500 people, Product Innovation & Process Improvements are our key to satisfy customer needs and maintain our status as a Premier and Niche Market Glove Manufacturer.

Dr G. Baskaran, our group's Managing Director leads a management team of 60 staff and a combined workforce of 2200 employees. A culture of hardworking, loyal and enthusiastic staff has collectively allowed us to grow sustainably over the years and consistently achieve greater heights. Our growth and successes over the years is testament to the exceptional leadership of Dr G. Baskaran and dedication of our loyal staff.

Brightway Holdings Sdn Bhd

Incorporated in 1988, Brightway Holdings produces a full range of natural and synthetic gloves and markets globally for the medical, industrial and cleanroom applications. Brightway, which commenced its manufacturing operations with 4 production lines in 1991 is located at Batu Belah, Klang which is close to Port Klang. In addition, it has its 2nd Factory at Bestari Jaya (Batang Berjuntai) and the 3rd Factory at Chemor, Perak. These three factories have a cumulative production of 70 million gloves per month, mostly of the specially types with a support of 900 employes. Brightway is the group administrative, testing and research & development Centre. Our strength is in our ability to meet customer specifications and provide a wide range of products in line with quality requirements & market demands of our customers.

Incorporated in 1991, located in Kajang, Selangor Laglove has 9 production lines with an output of 47 million pieces per month, producing mostly Cleanroom and EMS (mostly UL/NFPA certified) gloves in Nitrile and Natural Latex. Nitrile Sheaths and shoe covers are also produced in this facility.

Biopro (M) Sdn Bhd

Biopro started operating in 1988. It houses 17 production lines, inclusive of 7 state-of-the-art double former lines with an output of 113 million pieces per month. Located at Kawasan Perindustrian Sultan Hishamuddin, Port Klang, Selangor, it is also equipped to 'slip sheet', pack and load containers.

Brightway Cleanroom

Brightway takes pride in its state of the art Cleanroom facility that is capable of processing Latex & Nitrile gloves to Class 100 and class 10. The Cleanroom is equipped with RO-DI Water System which is able to produce consistent high purity DI water of 18 mega ahms. The raised flooring and the UEPA filters ensure that Class 10 standards are achieved within the Cleanroom. All gloves processed within the Cleanroom are tested for Non-Volatile Residue, Liquid Particle Count is tested using the 0.5 micron (u) particle counter. An-ions & Cat-ions are tested with the lon Chromatograph machine and Zinc Content, using a Spectrophotometer.

ZER O

CARBONATES
SULPHUR
PROTEIN

EASY TO EAR
ULTRA LOW STRESS DESIGN
LOW HYDRATION
HIGHER SHELF LIFE
NON-ALERGIC
NO ODOUR
NO YELLOWING
NO IRRITATION

Manufactured in accordance to the highest quality standards that ensures dexterity, protection and comfort, these gloves are produced using 100% natural latex. We produce both Ambidextrous and Hand Specific gloves that are low in protein content which are then processed for Medical, Industrial and Cleanroom use. Gloves range from 6mil to 20mil in thickness and are mostly produced to customer specification (OEM).

Design & Features:
